A very special thanks to everyone who joined us! Without your kindness, big hearts and generosity of spirit, SADAG and its volunteers could not continue what we do best – make mental health matter.

Thank You SADAG

SADAG continually receives beautiful thank you emails, SMSes and letters from people who we have helped and we share them with you because they touch us so deeply.

Hi Zane,

Your counsellors are very helpful. I feel better already. Thank you so much for all that you do. God Bless you and SADAG.
Regards N from Port Elizabeth.

Hi Zane,

Our group is going great guns. At our last meeting we had an informal discussion-evening and despite a cold and wet evening, 32 people showed up. Just shows you that it is not always necessary to have a speaker or subject. Sometimes people just want to communicate and share with other people "on their own level". We asked two people beforehand to share their experience with depression with the group and that really "opened up" the evening. Keep well and be kind to yourselves at SADAG. Wynand, CT Support Group Leader.

Letter of the Month in September's issue of O Magazine:

"Healthy Decisions" - I live in Cofimvaba, in the Eastern Cape. In April this year, I was diagnosed with depression and spent a month in a psychiatric hospital, coming to terms with my disorder. Then I read the May 2013 issue (Beautiful at Every Age), and found the article "The Disclosure Decision" where I learnt about The South African Depression and Anxiety Group (SADAG). I called, and got sound and compassionate advice. Thank you for your informative article - I have learnt so much about mental illness, and, with the help of SADAG, I hope to attend awareness training courses.

On September 10th every year is dedicated to those who have lost a loved one to suicide. A Remembrance Event was first started in Durban by Support Group

Leader, Joy Chaing, and still continues every year to remember those that have lost a loved one. This year we are also working with those left on their own in Lenasia and Eldorado Park. This day is commemorated around the world, by family and friends letting a balloon float to the sky in memory of their loved ones. Wherever you are in the country, you are welcome to participate if you have experienced loss due to suicide.

Remember SADAG is here to support you on this sad day.

Sincerely,
